

# Microsoft 365 Assessment and Migration Services

Empowering everyone to be innovative and work together, securely.

- **Device Management – For Windows 10 PCs**
- **Data Protection – Across all devices and platforms**
- **Windows AutoPilot – Streamlined deployment of PCs with Windows**

Microsoft 365 is a full, dynamic solution, that brings together the best of Office 365, Windows 10 Enterprise and Enterprise Mobility + Security. The promise of dynamic scalability and cost efficiency are hard to resist. But in practice, adopting the cloud, without a strategic plan, can add complexity and new management challenges. At IPM, we're experts in strategically mapping your journey to the cloud, identifying when and how to best move the right workloads at the right time, so you realize the true value of cloud services.
