

NewtekOne® Serves 2.2 Million Clients with IT Support from IPM

How Intelligent Protection Management Directs IT for NewtekOne

As proof of a long-established partnership, Intelligent Protection Management (IPM) manages all of NewtekOne's IT needs. Despite the industry-specific challenges of high regulation and consistent cyberattacks, IPM has supported NewtekOne on an incredible growth journey that resulted in over 2 million clients served.

24/7 Managed Security

Operating as a vCSIO to safeguard assets and maintain disaster recovery in a highly targeted industry.

Hardware and Software Implementation

Enabling helpdesk, websites, digital client tools, and more.

Hybrid Cloud Structure

Implementing managed hybrid and public cloud services for flexible scalability.

The Partnership

Started in 2004, NewtekOne began as a small technology solutions company. Fast forward 21 years and NewtekOne is now recognized as a publicly traded bank holding company (NEWT) that works in a wide range of verticals, including lending, banking, merchant processing, and business operations.

NewtekOne faces industry-specific challenges such as strict compliance regulations, focused targeting from cybercriminals, and a reliance on time-sensitive data transmission. It's not only IPM's expertise that makes it the trusted technology partner to meet these challenges, but its commitment to tailored IT solutions and responsive service.

Why NewtekOne Partners with IPM

Talent and Expertise – IPM's IT and cybersecurity teams stem from diverse professional backgrounds, enabling NewtekOne immediate access to professional service.

Pricing and Efficiency – IPM on-ramps quickly, prices fairly, and scales services seamlessly, providing NewtekOne the essential IT to grow into the company it is today.

Tailored and Responsive – IPM's IT teams remain small, encouraging NewtekOne to operate at scale, knowing it is backed by focused, individualized support.

Industry Compliant – IPM operates under strict Office of the Comptroller of the Currency (OCC) regulations.

Secure & Scale Your IT with IPM

Discover how IPM's cutting-edge technology solutions can drive security, efficiency, and long-term success for your business.
